

INSTALLATION

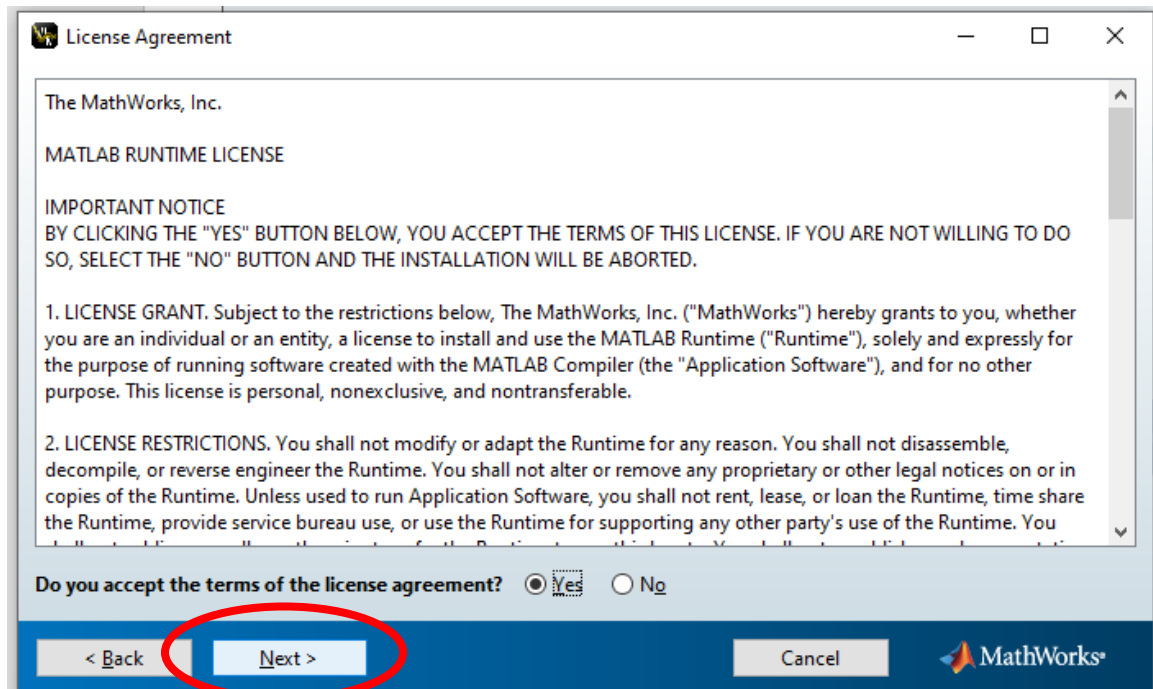

Note: is recommended to **Add a shortcut to the desktop**.

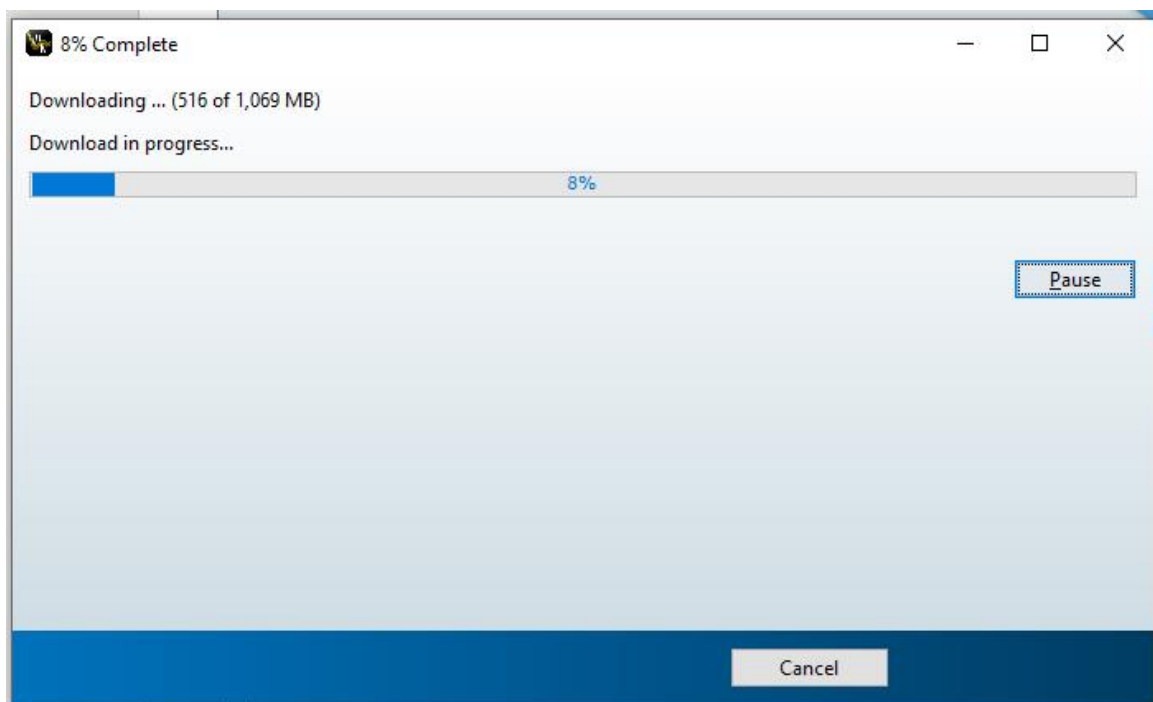

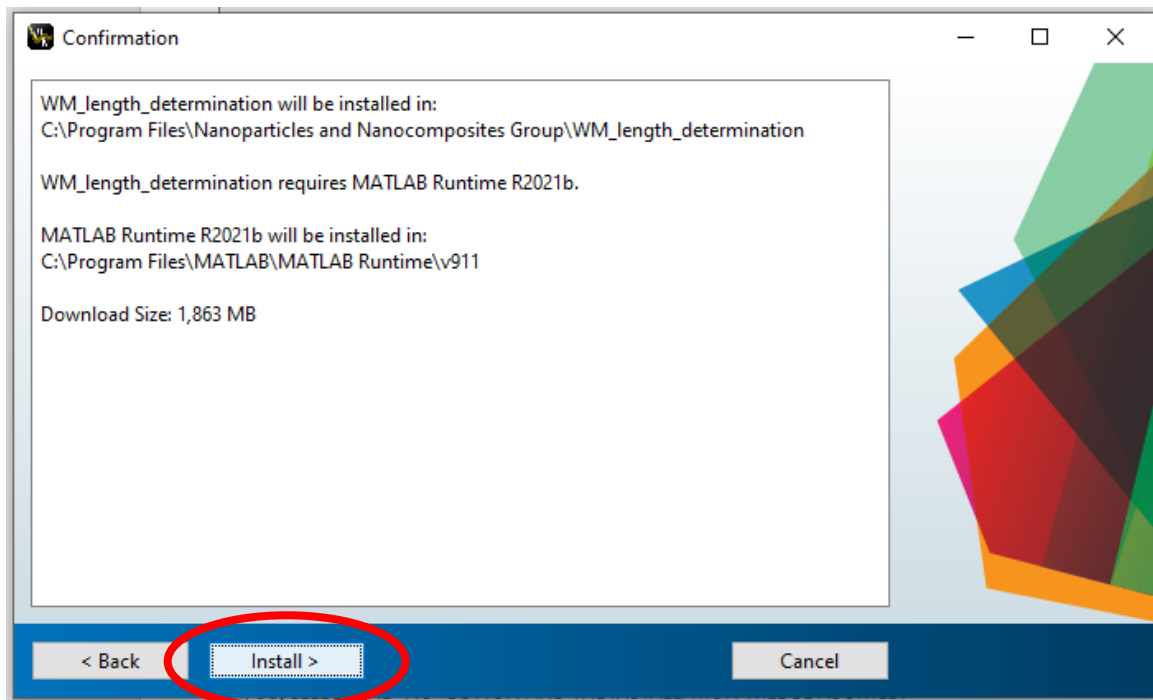

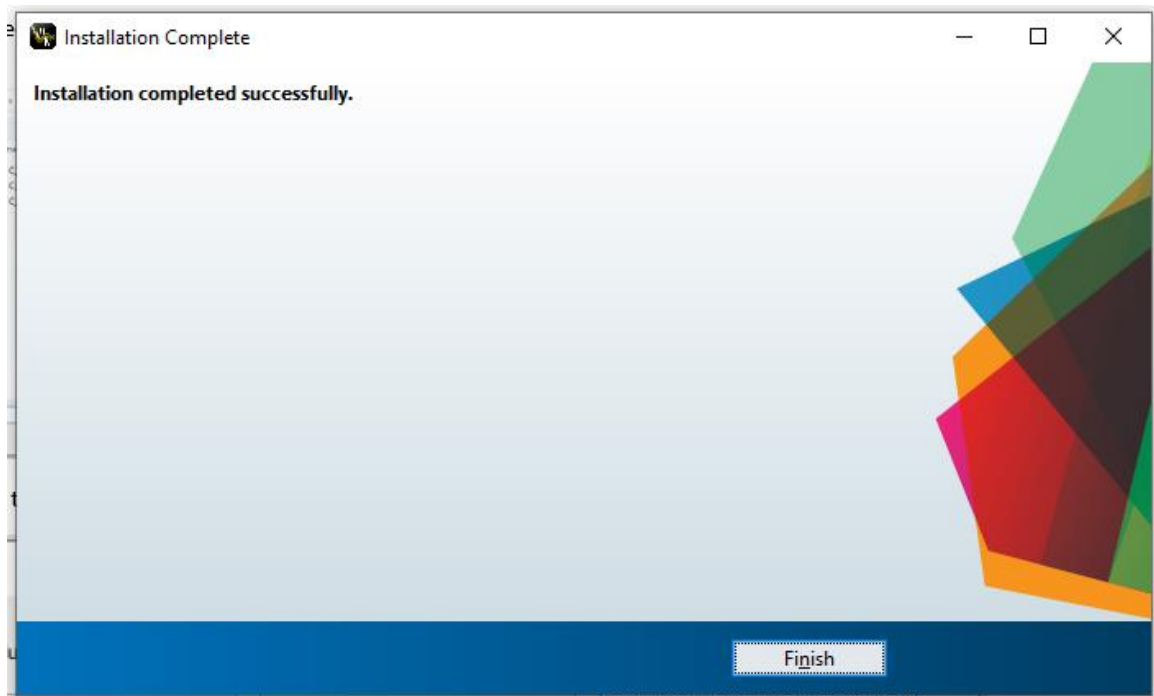

MATLAB Runtime installation

Note: **MATLAB Runtime** is the software which allow to execute the WorMe program. **It is not the main MATLAB software**, and **you will not need a MATLAB license**. MATLAB Runtime is just a software that allow to execute the MATLAB compiled programs, like the WorMe program.

Now you have the program installed on your computer.

For **uninstall** it, you just need to go to 'Add or remove programs' of Windows.
